PROFESSIONAL SUMMARY

A motivated Full Stack Developer with a strong interest in building modern, responsive, and user-friendly web applications. Skilled in both frontend and backend technologies, with a passion for solving real-world problems through clean and efficient code. Eager to contribute to innovative projects and continuously improve technical skills.

EDUCATION

Sri paramakalyani college Bachelor of computer applications GPA: 7.10/10.00	May 2025
SRM Valliammai engineering college Master of computer applications GPA: 8.13/10.00	May 2027

SKILLS SUMMARY

Programming : Python
Frontend Development : HTML5, CSS3, React.js
Backend Development : Flask, Node.js
Database : SQL, MongoDB
Tools : Git, GitHub, REST APIs
Development Environments : VS Code

PROJECTS

Intelligent Document Management System A full-stack web application designed to store, manage, and retrieve documents in an organized and secure manner. It allows users to upload and categorize files through a user-friendly dashboard with secure authentication. The system also includes an intelligent search feature for quick document retrieval using keywords and metadata, improving efficiency in document management. Tech Stack : React, Node.js, Express.js, MongoDB	May -2026
AI CRM System for Businesses (Ongoing Project) A full-stack AI-powered CRM system currently under development to manage leads, automate customer interactions, and improve sales performance. It includes lead management, email automation, real-time chat support, and a sales analytics dashboard. The system integrates AI features such as lead scoring, customer conversion prediction, sentiment analysis, auto email replies, and AI-generated business insights for data-driven decision making. Tech Stack : React, Node.js, Express.js, MongoDB, OpenAI API
